

Sales Proposal of TOYOTA Corolla EX

TOYOTA

Toyota's business activities in China can be traced back to 1964. Under the guidance of Toyota's global development vision, the localization reform in China is deepening continuously. Toyota has not only transferred the relevant functional departments of headquarters to China, to build the independent management and decision-making of Toyota in China, but also actively developed R&D in China, to strengthen the function of local R&D, cultivate local technical talents, and strive to provide products which can meet the needs of Chinese consumers.

Now, Toyota has set up 9 wholly owned companies, 15 joint ventures and 4 offices in 8 provinces and municipalities in China, and jointly established 6 vehicle factories and 4 engine factories in Tianjin, Guangzhou, Chengdu, and Changchun. With the efforts of cooperation partners, suppliers, and dealers, and support of consumers, the sales volume of Toyota in mainland China reached 1.47 million in 2018 (14.3% increase), which was the best sales performance in history.
